PROFESSIONAL SUMMARY

Data analytics leader with 8+ years across audit, insurance and ERP consulting in Saudi Arabia, the UAE and Egypt. Manager, Audit Data & Analytics at KPMG Saudi Arabia, combining audit data strategy with hands-on automation and systems integration. Experience spans multi-terabyte data preparation, financial reconciliation, GenAI-assisted workflows and executive reporting. Translates business and control requirements into practical analytics tools and connected data products.

CORE EXPERTISE

Audit analytics strategy • AI-enabled automation • Systems integration • Financial reconciliation • Journal entry testing • ETL and data quality • ERP implementation • Predictive analytics • Executive dashboards • Business requirements • Data product design

PROFESSIONAL EXPERIENCE

Manager, Audit Data & Analytics

KPMG Saudi Arabia | Riyadh, Saudi Arabia | Oct 2025 - Present

- Lead audit data strategy for complex engagements, advancing automated substantive testing, evidence preparation and analytics delivery.
- Develop automated sub-ledger analytics and reconciliation tools to streamline verification and produce audit-ready documentation.
- Build Alteryx and Power Automate workflows that replace manual processing; develop Power Apps and web tools with embedded Power BI reporting.
- Pilot GenAI and large language model (LLM) assisted audit workflows, applying prompt engineering and AI-assisted development to analytics use cases.

Assistant Manager, Audit Data & Analytics

KPMG Saudi Arabia | Riyadh, Saudi Arabia | Aug 2024 - Oct 2025

- Managed ingestion and preparation of multi-terabyte datasets, using ETL pipelines and data quality controls to support reliable audit analysis.
- Led SAP ECC to S/4HANA migration testing across 12+ months of journal entry data and built three-way automated financial reconciliation frameworks.
- Delivered analytics for insurance, banking and corporate finance clients; built Power BI dashboards to communicate audit findings and business risks.

PROFESSIONAL EXPERIENCE CONTINUED

Senior Business Analyst (ERP Specialist)

Odoo | Dubai / Riyadh | Jan 2024 - Jul 2024

- Led end-to-end ERP implementations connecting finance, CRM, HR, inventory and operations workflows with system configuration.
- Translated business requirements into solutions, built automated reporting pipelines, and supported user training and go-live.
- Resolved critical ERP issues and system bottlenecks to support operational continuity.

Pricing & Portfolio Senior Analyst

GIG Gulf | Dubai, UAE | Sep 2022 - Dec 2023

- Analyzed millions of insurance records using AWS Athena and SAS to inform retail pricing and predictive market analysis.
- Automated portfolio performance tracking for loss ratios and acquisition costs; delivered Power BI reporting for leadership across GCC markets.

MIS Officer to MIS Manager

GlobeMed Egypt | Cairo, Egypt | May 2017 - Aug 2022

- Progressed from officer to manager in four years; built Tableau and QlikView dashboards for health insurance KPI monitoring.
- Led fraud detection initiatives using automated anomaly alerts.

INDEPENDENT CONSULTING

Automation, BI & UI/UX Strategy Consultant

Upwork | 2024 - Present

- Deliver Alteryx workflow automation, Power BI architecture and Figma-based interface design for international clients.
- Top-Rated profile with 5-star client ratings for automation and business intelligence work.
